

Mid-Atlantic - Russia Business Council

Pennsylvania-Russia Business Council

FOR IMMEDIATE RELEASE:
CONTACT: Val Kogan, MARBC President

May 20, 2013
tel: (484) 467-7444, e-mail: val@ma-rbc.org

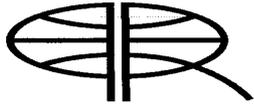

Over the past several years, one of the main priorities of the Mid-Atlantic – Russia Business Council has been Russian-American cooperation in energy efficiency and renewable energy technology. To achieve this goal, MARBC organizes American and Russian participation in the most important international clean energy technology conferences.

MARBC will continue to organize American and Russian participation in leading renewable energy and energy efficiency events, including the **Renewable Energy Finance Forum-Wall Street (REFF Wall Street)** in New York on June 25-26, 2013, **Renewable Energy Technology Conference and Exhibition (RETECH)** in Washington, D.C. on September 9-11, 2013, **Greenbuild** in Philadelphia on November 20-22, 2013, **National Renewable Energy Policy Forum** in Washington, D.C. in February 2014, and **Mid-Atlantic Energy Technology Forum** in Philadelphia in April 2014.

REFF Wall Street, in New York on June 25-26, is the leading renewable energy financing event in the country. Organized jointly by American Council on Renewable Energy and Euromoney, the event will discuss the main challenges currently facing renewable energy and provide insight into future business opportunities in this sector. REFF Wall Street creates the opportunity to hear from those that are defying the existing industry challenges to create innovative financing solutions and offers you the chance to share your perspectives throughout the discussion on the direction of the market. The meeting also presents the chance to network with senior officials and professionals in the renewable energy finance industry. As a supporting organization of REFF Wall Street, MARBC will offer a special 20% discount with registration code: SPT20MAR. For additional information about REFF Wall Street, visit <http://www.reffwallstreet.com/>

RETECH, in Washington, D.C. on September 9-11, is the premier trade gathering of the all-renewable energy industry in the United States. The event offers an excellent opportunity to network with high-level industry representatives and forward-thinking, focused organizations with a global view. This three-day technology conference and exhibition features a trade show and six tracks of top CEO-led business conference sessions by technology, as well as multiple business-to-business side events. As a supporting organization of RETECH, MARBC will offer a special 20% discount with registration code: RTRD1. For additional information about RETECH, visit <http://www.retech2013.com>

Greenbuild, in Philadelphia on November 20-22, is the largest green building conference in the world, bringing together industry leaders and professionals to network and discuss sustainable building in business. MARBC will bring Russian participation to the event and partake in a panel discussion exploring recent developments in the renewable energy and energy technology industries in energy rich countries. For additional information about Greenbuild, visit <http://greenbuildexpo.org>

The National Renewable Energy Policy Forum: “Moving From Politics to Policy: Advancing the Business of Renewable Energy”, organized by the American Council on Renewable Energy, will take place in February 2014 on Capitol Hill and will include discussions by renewable energy leaders from across the country involving the present state of renewable energy policy and addressing the need for future action by policymakers. There will be several opportunities to network with high-ranking public and private sector officials in the fields of energy and policy who are concentrating on renewable and clean energy technologies.

The ACORE’s National Policy Forum began with the goal of implementing the United States’ new energy technologies for the benefit of the nation’s economy and to better fulfill its energy needs. Yet serious policy reforms are needed for this goal to be realized. The forum will develop a policy framework in line with the key economic challenges facing the renewable energy industry today. For additional information about the National Renewable Energy Policy Forum, visit www.acorepolicyforum.com.

The Mid-Atlantic Energy Technology Forum in Philadelphia in April 2014 is organized by the Venture Group of Blank Rome LLP, the Academy of Natural Sciences, and the Cleantech Alliance Mid-Atlantic. The forum will feature a panel of industry leaders in energy technology venture and corporate investing, as well as presentations by leading Mid-Atlantic energy technology start-up companies. More information can be found at <http://www.BlankRome.com/EnergyTechForum/>

MARBC would like to invite you to take part in these clean energy events, which will offer exceptional opportunities to network with industry leaders and progressive, global organizations. MARBC is a supporting organization of these events and is working to expand the participation of Russian delegations and to develop Russian business exposition. For further information, please contact Val Kogan, President of the MARBC, by phone at: (484) 467-7444, via email at: val@ma-rbc.org or by visiting the MARBC website: <http://www.ma-rbc.org>
